

DESCRIPTION:

- Antigenic identification
- Specific antibody
- Wide range of pathogenic bacteria

KIT:

- Latex reagents
- Positive control
- Cards and sticks

BENEFITS:

- High sensitivity and specificity
- Results within 2 minutes
- Accuracy and reliability
- Easy interpretation

STREP-CHECK LATEX KIT

Streptococci (A, B, C, D, F, G) identification

96016

50 test

STREPTO A LATEX KIT

Group A Streptococci identification

96154

50 test

STREPTO B LATEX KIT

Group B Streptococci identification

96153

50 test

STAPH LATEX KIT

Staphylococcus aureus identification

96017

50 test

CAMPYLOBACTER LATEX KIT

Campylobacter jejuni identification

96143

50 test

CLOSTRIDIUM DIFF. LATEX KIT

Clostridium difficile identification

96144

50 test

E. COLI 0157 LATEX KIT

E. coli 0157 identification

96150

50 test

LEGIONELLA LATEX KIT

Legionella pneumophila identification

96142

50 test

LISTERIA LATEX KIT

Listeria spp. identification

96146

50 test

SALMONELLA LATEX KIT

Salmonella spp. identification

96151

50 test

SHIGELLA ANTISERUM

Serological identification of *Shigella spp.*

96148

50 test

YERSINIA ENTEROCOLITICA ANTISERUM

Serological identification of *Yersinia enterocolitica*

96147

50 test
